Zeller is a patient teacher and understands that each student learns at a different pace, so she is always one to take time to make her instructions as clear and concise as possible, and it shows in her book "Bead Tube Jewelry".To the advanced beader this book may not be Earth shaking but it does contain a number of lovely peyote stitch charts along with several Peyote tube projects that a beginner or

intermediate beader may fully appreciate. It also offers the novice, or those with time restraints, lots of projects that are quick to make. I would not hesitate to recommend this book to my beading friends. 0 of 0 people found the following review helpful. Five Stars By Customer wonderful book 1 of 1 people found the following review helpful. Good for tubular bead lovers By M. Roseen A one note book, but the patterns are lovely, readable and useful to me. I have made several pieces based on these patterns.

Artist and author Nancy Zellers takes it to the limit with this utterly original bead tube book. Using a simple peyote or brick-stitched tube, the author shows how to create more than 30 projects ranging in style from elegant to funky, and with colors spanning from subtle to brilliant, all from tiny, colorful, easy-to-find seed beads. Readers are able to see how changing colors and designs create new and exciting beaded beads. Also, a range of bracelets, earrings, and necklaces will delight the aspiring artist.
