If there's anyone who's into making their own jewelry in the Grundy or Will Counties in Illinois, please contact me. I'd love to get some instruction. Thank you.1 of 1 people found the following review helpful. GreatBy Black NileBeautiful projects. I fell in love with this book. The Siren is the necklace posted as the cover located on page 77. I feed my need to bead. This project I will charge a bit more as the labor will be a bit intense.1 of 1 people found the following review helpful. Five StarsBy Mary Anne PirozziLove it....Easy reading and beautiful looks

Pearls have long stood for classic beauty and elegance, and this collection of 30 exquisite projects, the latest in the

bestselling Beading with series, continues that time-honored tradition. It features sophisticated and stylish designs by a pool of talented artists, most using simple techniques suitable for beginners. The pieces range from vintage and sentimental to hip, modern, and edgy: the showstopping Bohemia ring features three burgundy pearls set in silver wire, accented with Swarovski crystals. Nefertiti earrings fit for a queen highlight clusters of tiny white rice pearls on wrapped bead loops. A shimmering three-strand necklace includes polished citrines, faceted glass beads, and off-white pearls. Every page is brimming with high-end style!

From BooklistEssentially, editor Campbell is an aggregator-collaborator, calling on the talents of 19 designers across the country. Here, the subject is pearls, in all conceivable forms and colors, from freshwater and Mabe Majorca to Tahitian, from cream to burgundy and lavender iris. As Campbell points out in her introductory remarks, pearls quickly became the classic signature of Grace Kelly and Jackie Kennedy as well as the more provocative adornments for Josephine Baker, who combined pearl and banana necklaces at strategic places and nowhere else. Much information is relayed about pearls in general, as well as techniques and storage tips, before launching the 30 projects. Separated by level of proficiency beginner, experienced beginner, intermediate the 30 items each are accompanied by color photographs, illustrations (when necessary), extraordinarily clear instructions, and page references to specific techniques (like making your own jump rings). Patterns vary from contemporary and moderne style to baroque; it's hard to resist a stark-white oversize pearl ring as it is to ignore a luxuriant flapper chain. --Barbara Jacobs
