I had always been curious to know if you could "needlepoint/crossstitch" with beads! Now I know - YES, YOU CAN!! :-) I know know what size beads to use with which canvas. The only "sticking point" for me is that there are no bead color reference numbers, only bead color descriptions, which makes it a bit of a challenge to insure that your colors will look good together. Even with that said, I would still highly recommend this book.0 of 0 people found the following review helpful. Very helpful and informative book for a newbie like me! Benson provides great introductory material....Projects are mostly classic, inspired by Persian rugs, landscape or still-life scenes....Challenging projects for pillows, purses, and wall hangings are real standouts.
