My mind is racing with ideas to make these beautiful pieces my own. This book is great for novices and more experiences jewelry artists. Basic instructions and preparation are easily understood and some novel approaches to leatherworking make this a great muse for the more experienced. Beautiful job Melissa !1 of 1 people found the following review helpful. If I could give more stars I would!By drc536Wonderful details!First, Melissa's book describes the types of leather, some of the tanning/dye processes, and basic supplies to complete projects. She includes substitutions for certain tools, which comes in handy if you have many of these tools on hand from sewing or metalworking. I really appreciate her safety note about leather processing. I think the info is

invaluable if a customer is trying to avoid using more problematic materials. Fabulous designs! Her designs use lots of geometrics and look runway ready. I love how complex the look of each piece looks, yet how simple the projects are to assemble. Instructions include wonderful detail and explanations of processes. I cannot wait to try some of her techniques, and I absolutely love this inspirational book. If I could give more stars, I would! 2 of 2 people found the following review helpful. not for beginners By ta Not for beginners. Instructions are often incomplete and sometimes vague. The author assumes too much. Almost all her projects require tools beyond the basic ones that she describes at the beginning of the book. (That is OK with me as I am a tool person.) This book may be OK for someone with some experience in making leather jewelry as it does offer some interesting ideas.

Melissa Cable has a knack for taking traditional jewelry-making techniques and applying them to various materials in an upscale, modern way. In *Beautiful Leather Jewelry*, she shares new methods for altering leather to create unique textures and patterns in a variety of necklaces, bracelets, cuffs, pendants, and more. Proper finishing techniques, such as snap setting, will ensure polished, professional results. Aspiring leather jewelry designers will appreciate learning how to combine familiar materials such as Swarovski crystals, metals, wood, felt, and resin with leather cuffs, cords, and more. This is leather jewelry like you've never seen before!
