**Diane Crane, Judy Cardinal, Jane Jenkins, Janet Wilson : Beautiful Quilling Step-By-Step** before purchasing it  
in order to gage whether or not it would be worth my time, and all praised Beautiful Quilling Step-By-Step:

looking for. Excellent for beginners.0 of 0 people found the following review helpful. ... the book focuses on three  
dimensional quilling of things like fairies and angelsBy Claudia T. SmithAbout half of the book focuses on three  
dimensional quilling of things like fairies and angels, as well as a section on making realistic looking paper chocolates,  
so it lost a point for me. However, there is some excellent discussion about how to create themes and motifs, not to  
mention the instructions to make the various projects are very clear. I learned about some different ways to do husking  
and some of the projects are amazingly pretty - especially for how simple some of the projects are.6 of 6 people found
