Brandon Rimes : Become the MVP in Your Industry by Surfing the Radio Waves before purchasing it in order to gage whether or not it would be worth my time, and all praised Become the MVP in Your Industry by Surfing the Radio Waves:

1 of 1 people found the following review helpful. This was just an excellent book on how to get your own radio show ...By M. WeemsI own my own business and I am always interested in reading books and such about other aspects of marketing that I haven't thought of. This was just an excellent book on how to get your own radio show up and

running without much monetary effort. I've already put these steps in place and I'm really excited about it. This book has a solid blueprint that any business owner can follow easily - even if you aren't the most technically savvy person out there. Highly recommend this to business owners out there that want to break out of that same old boring marketing niche.0 of 0 people found the following review helpful. This book had some great advice about how to advertise on the radioBy CustomerThis book had some great advice about how to advertise on the radio. Rimes explains both how to get started and maintain your presence on the air. I really would have never thought the radio could be used as a tool to advertise (except for by payment, of course), but Rimes does a good job of walking you through the process while also giving you your own space for ideas. I particularly liked that aspect, as it was nice to be able to write my own ideas down as I read the book.1 of 1 people found the following review helpful. Great step-by-step guide to starting a radio showBy SaraExcellent information on how to start a radio show and leverage it in order to become a key person of influence in your industry. How do you make yourself stand out of the crowd? It's difficult when starting your own biz. Brandon's technique's walk you through step-by-step to show you how it's done. Great information to utilize in this ever growing, social media age to stay ahead of the masses.
