Some of the the things it cover that aren't easily found in newer books are little snippets like:Page 76 "Pressing Shirring"Page 125 Explains how and WHY to reinforce the underarm seam of the Kimono sleeveAlong with bigger discussion such as:Page 77 begins a discussion on interlining, when and where, etc.Page 135 Chapter 8 is a nice discussion on working with special fabricsPage 182 "Halters" construction method (including lining)Page 185 "Making Evening and Cocktail Fashions" If you love chasing those patterns on that auction site, you'll enjoy this chapterChapters on coat making and tailored suits as wellIf you're interested in this book for home decor sewing you'll probably be disappointed. There are very few pages dedicated to the topic. All in all a nice book to have in your seamstress library. It is also written in an easily read

format, one of those books I enjoy taking to the front porch with a cup of tea.0 of 0 people found the following review helpful.
