I didn't really like a lot of the projects in it (in fact I thought a lot of them looked ugly. What's with all the rusty wire? Gross.) The overall layout and design of the book wasn't very visually appealing and seemed really dated. It's got some unique ideas and tips that might be useful to some beginning beaders/wire workers, but nothing too impressive. I didn't find a lot of the designs to be very stylish or visually appealing. I would not recommend it0 of 0 people found the following review helpful.
