Elizabeth DuVal : Beyond the Basics: Mosaics (Beyond the Basics (Sterling Publishing)) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beyond the Basics: Mosaics (Beyond the Basics (Sterling Publishing)):

7 of 7 people found the following review helpful. Beyond the Basics: Mosaics By Patricia Novak Nice book for those of us who love to do mosaics. Sometimes I need just a little more help being creative. The projects are ones that you have been looking for the instructions for. The book has great photographs and lots of ideas on where to get your treasures to mosaic. I really look for classy things and different things to embellish with mosaics and this book gets to the meat of what you need to accomplish your project. Sometimes I have the ideas but I'm not quite sure what it will really look like before I start. This book gets you ready to enjoy the projects that you make. It also helps you to personalize that project you created to be a fine gift your friends and family will treasure. 0 of 0 people found the following review helpful. Beyond the Basics: Mosaics By Mary J. Knight I love this book! It is so inspiring. It is my favourite, and I have lots. I have it as a coffee table book so I can enjoy it often. I have done mosaics for 5 yrs. but none in her style of using the entire plate as the design. I just use the rim. However, when I get a set of dishes with great designs in the middle as well as the edge I will make a table. Get this book - it is so beautiful! 0 of 0 people found the following review helpful. Five Stars By Eileen Great Idea's, great book.

Introducing a new series that begins where the bestselling For the First Time series leaves off and provides more experienced crafters with the tools to take their art into the stratosphere. Mosaicists will rejoice when they discover that the first volume is dedicated to their craft. It will empower them to create fabulous decorative items, teach them how to design on different-shaped surfaces, and explain how to select pieces that produce rich texture and gorgeous visual effects. Among the beautiful methods they can use to create remarkable projects are shellwork and picassiette, or mosaics made from chipped pieces of china. It won't take long to learn how to make the Silver Platter, Boudoir Mirror, Blue Transferware Backsplash, Patio Table, Memory Box, Lamp, and much more.
