I'm self-taught in crochet, and this book has not only the text pattern, but also illustrations right alongside the patterns for special stitches that are needed. It does have a couple patterns that are Tunisian-type (I think) patterns that have me curious about that style of crochet now :) The patterns are gorgeous too!1 of 1 people found the following review helpful. New and unique patterns. Would recommend.By M. A. SmithThis book has the most patterns that I will actually make, compared to other books I have that are unrealistic for my skills. They are beautiful

and unique patterns, and I would recommend this book to others who like to make afghans. 1 of 1 people found the following review helpful. Two friends are getting married next year. By meow Two friends are getting married next year. Found a pattern that fits each of their personalities to make as gifts

Adding a touch of comfort and style to a crafter's home decor, the patterns in this collection can be made from a variety of yarns and colors and by crocheters of all skill levels. With 26 designs, this book features full-color photographs and detailed instructions on stitching and incorporating motifs and patterns such as granny squares, Tunisian lace, pineapples, shells, ripples, and more. Beautiful, whimsical, and practical, these afghans make perfect gifts and home accents.
