**Editors Of Klutz : Big Bubbles Book Kit-** before purchasing it in order to gage whether or not it would be worth my time, and all praised Big Bubbles Book Kit-:

13 of 13 people found the following review helpful. Great fun..even for adults By Steven C. I bought these for gifts after finding the older version at a garage sale. The bubble wands work great and seems to attract everybody. My friends laughed at me when I pulled my bucket of bubble solution and bubble wand out of the car, but as soon as they seen the size of these bubbles and the way they bend, stretch, deform and float around, they couldn't get enough. You can make gigantic bubbles with the wand, but you have to practice the release of the bubble. When you figure out the tricks (there are a couple) no one will be able to resist gawking for hours. Adults laugh at first, then remember how much they still love BUBBLES. If you use this at a park, you will have countless fans. The one thing that's a bit of a problem is the recipe for the bubble solution. I find that a 1 to 10 mixture is better than the recommended 1 to 12. Also, the bigger the bubble the harder it has keeping it's shape, but that can make for some great fun and wacky bubbles. No more than a light breeze will be needed to make most of the bubbles but especially the large ones. Any

moderate gusts and they pop. The book has good background information but the recipe will need to be adjusted per your own experimentation. Have fun, I know I am. 5 of 5 people found the following review helpful. Works great! By S. Mulkey This works really well! I used a bubble solution I found on the internet that contains guar gum and we were able to make lots of huge bubbles. The humidity was around 50% so not ideal, but not terrible conditions either. You do need to be careful not to get it tangled, but other than that it is kid friendly. 1 of 1 people found the following review helpful. Love it! I want to try a different recipe ... By Miss\_B Love it! I want to try a different recipe or buy a premade bubble mix to use with it though - the recipe included seemed to pop too often while trying to form the bubble, and I don't think I ever got them as big as some of them in the book. Who knows - it could have even been the weather. But I've only used it twice and definitely plan to use again. The kids enjoyed it too.

**KLUTZ-How to make Monstrous; Huge; Unbelievably BIG Bubbles.** Ever see a REALLY BIG bubble? Well with this complete set of The Bubble Thing (included) and how-to tips and techniques on getting the most out of David Steins incredible invention; as well as a celebration of the gentle soap bubble-its science; spirit and practice. This book will even show you which soaps are best for making these monsters! Spiral-bound softcover with an attached plastic storage container for your The Bubble Thing. Recommended for ages 6 and up. Imported.
