Frances Ruffin : Blue Ridge China Treasures (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Blue Ridge China Treasures (Schiffer Book for Collectors):

0 of 0 people found the following review helpful. Blue Ridge ChinaBy Dorothy M. KeddingtonVery colorful and informative. Personally, I enjoyed the Ruffin's first two books more, but I am happy to add this one to my collection.0 of 0 people found the following review helpful. Great BookBy Sally B. WoodyMany patterns of Blue Ridge identified. Found pieces I have that I had not found in other books. Hard to put the book down once you open it.0 of 0 people found the following review helpful. Great resource - Authors Created Some Pattern NamesBy F.Louise S.Great resource for seeing what other collectibles besides plates are out there in the Blue Ridge Pottery world. Hundreds and hundreds of photos to enjoy.Since I (and most people I would imagine) purposely selected this book to identify Blue Ridge pottery patterns, I did find it kind of odd that the authors took it upon themselves to make up a name for many of the patterns...I guess they couldn't find the official Southern Potteries name? or maybe the pattern wasn't ever

officially named? No reason given. This practice isn't stated clearly and is only mentioned at the very back of the book at the top of the index. SO if you are looking for the name of a particular pattern, just be aware that in many cases in this book the name is one the authors created...sometimes they indicate this by putting the pattern name in "parentheses" but not consistently. That disappointment aside, the book is chock-full of Southern Potteries/Blue Ridge products. The section on the different factory stamps was interesting, too.

Here is a wonderful new look at the popular and highly collectible Blue Ridge China produced by Southern Potteries of Erwin, Tennessee, from 1938 to 1957. Expanding upon the research done for their first two books (Blue Ridge China Today and Blue Ridge China Traditions), the authors provide a comprehensive, pictorial review of these beautiful, hand-decorated wares. \nWritten with young and future collectors in mind, the book contains a special focus on exciting children's pieces made at the pottery. In addition, collectors of all ages will find an extensive assortment of the wide-ranging dinnerware and china pieces for which Blue Ridge is so well known. Included are many newly identified patterns, newly discovered pieces, and different pieces and shapes for some "old favorite" patterns. \nThe invaluable appendix contains pattern numbers, matching glassware, backstamps, and a new section featuring many of the original rubber stamps used at the pottery. Suggested prices in the captions and a separate Price Guide are based on the authors' careful and constant monitoring of sales from the Internet, auctions, antique malls, and garage sales. This is a delightful celebration of the timeless and much-loved Blue Ridge China.

About the Author Frances and John Ruffin have written two previous books on Blue Ridge China for Schiffer Publishing. They have also published a newsletter, The Blue Ridge China Quarterly, since 1999. The Ruffins reside in Watkinsville, Georgia.
