Unfortunately, although there's quite a number of pictures in the book, most parts do no include a visual aid. Trying to teach for example, a sewing style using nothing but words would drive anyone up the wall trying to figure out what exactly the author is saying. It would've been an excellent book, among the many I have bought if every step (especially difficult tasks such as sewing) included images, because this book really teaches quite a variation of binding types and sewing styles.Nevertheless, I'm going to keep this book as a reference, no regrets buying it.0 of 0 people found the following review helpful. Finally a book with clear instructions/By Love LifeThis is a great step by step for beginners and experienced binders as well.0 of 0 people found the following review helpful. Very practical guideBy Chris BattThis book is great - lots of pictures and easytobinderstamd instructions. Would recommend for anyone interested in the craft of bookbinding.
