**Franz Zeier : Books, Boxes Portfolios: Binding, Construct and Design, Step-By-Step** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Books, Boxes Portfolios: Binding, Construct and Design, Step-By-Step:

1 of 1 people found the following review helpful. There's no easy way to make a book, box, or portfolio By 1brotha There's no easy way to make a book, box, or portfolio, but this book is one of the best I've seen at providing instructions on doing so. As a graphic design student the instructor suggested we purchase this book to help with box and portfolio making. The instructions are very detailed, but the illustrations are not that great. So it's kind of

like putting box furniture (with bad diagrams) together. The written instruction is great until you look for an image to verify that you are doing it correctly. With a lot of patience, practice and precise measuring and cutting you too can create an item that may be considered a work of art in itself. 0 of 0 people found the following review helpful. The best. By mainer This book is wonderful. It's such a refreshing break from the abundant "crafty" books on this subject that overwhelm with garish colors and indiscriminate ornamentation. This one instructs with clear illustrations and encourages thoughtful, tasteful design elements. If you're a designer, skip the others- this is the only one you need. 0 of 0 people found the following review helpful. Five Stars By Miriam Carpenter Great Condition! Great book for beginners!

In this introduction to the techniques of bookbinding, Franz Zeier guides readers step-by-step through projects for making a variety of boxes, portfolios, book covers, photograph albums, mats, and sewn and adhesive

About the Author Franz Zeier, a Swiss designer, has taught bookbinding at the Kunstgewerbeschule in Zurich for over two decades. He has exhibited work in numerous shows and is the author of a book on design with paper.
