We checked this book out from the library and loved it so much we bought itBy Ida KimMy son LOVES paper airplanes. We checked this book out from the

library and loved it so much we bought it. So many awesome airplanes to make and they fly SO well. A must buy if your child is into paper airplanes! 1 of 1 people found the following review helpful. How To Build Your Own Paper Airforce By Tommie Mallini I bought this book for my grandson Alex. he is 11 years old and loves to design and build paper airplanes. This book has been a wonderful resource for him providing dozens of patterns and a disk with many more plans and instructions to print out and make.

BUILD YOUR OWN PAPER AIR FORCE contains 35 amazing models to print out, fold, and fly. Detailed instructions in the book explain how to assemble each aircraft, and the CD contains ready-to-print templates, plus a whole range of patterns and colors--allowing thousands of different aircraft to be made.
