Jack Buckler : Build Your Own Steam Locomotive: Constructing 'SweetPea' a Narrow Gauge Bagnall Style Locomotive in 5" Gauge before purchasing it in order to gage whether or not it would be worth my time, and all praised Build Your Own Steam Locomotive: Constructing 'SweetPea' a Narrow Gauge Bagnall Style Locomotive in 5" Gauge:

Clear and straightforward guide to building a narrow gauge steam locomotive. This guide has proved very popular and there is an annual convention amongst the owners of this model and its variations. The author describes the locomotive as being strongly influenced by Bagnall design, especially the boiler, while most other details have a strong Hunslet feel. The design can also be used to build the popular Metre Maid, the six-coupled version of the Sweet Pea. Illustrated throughout with diagrams and black and white photos. 173 pages.
