**Kimberly Sciaraffa Berlin : Build Your Own Wire Pendants** before purchasing it in order to gage whether or not it would be worth my time, and all praised Build Your Own Wire Pendants:

3 of 3 people found the following review helpful. Worthy addition to the wire worker's libraryBy ChandraAs a wire wrap instructor I'm always on the lookout for books which either give great design ideas or particularly clear instructions. This book has adequate, though not always perfectly clear, directions; where it shines is in its designs, many of which are unlike anything I've seen before.This book also includes an extensive section guiding wire wrappers through several imaginative variations of the conventional bundle wrap. To me this section alone would make the book well worth owning.0 of 0 people found the following review helpful. GoodBy Helen TroyGood pics. Info clear. Had some tips. Unique projects.2 of 2 people found the following review helpful. Christmas TreeBy Catherine FranzI liked the Christmas tree design except when I tried to make it, I found the dimensions and directions incorrect. I was very disappointed when this happen. I had to take my own common sense to straighten it out. It took about 5 practice pieces and rewriting the directions and then I made it happen. Haven't tried anything else in the book, nothing else appealed to me and I guess I'm direction shy now with this last experience. A few techniques have some promise for me in the future to incorporate in something else. So I have this review "I like it" because of this.

Every jewelry maker will find inspiration for using a favorite focal bead, cabochon, or bead stash in *Build Your Own Wire Pendants*. Whether using inexpensive craft wire, copper, or sterling silver, aspiring wireworkers will have fun with 20 playful projects that encourage them to pick and choose their favorite techniques. Make a basic frame: hearts, stars, circles, pyramids, and more! Then pick embellishments to add interest and dimension: loops, spirals, bails, sewing with wire the list goes on! This book is a delightful introduction to making wire pendants.

**About the Author** Kimberly Sciaraffa Berlin indulges her love of wire artwork full time as an instructor and project designer. She has been published in many Kalmbach titles - *BeadButton* magazine, *Wirework* magazine, *Creative Chain Mail Jewelry*, and *Creative Beading*. Kimberly is past vice president and member of the San Antonio Bead and Ornament Society and a member of the Southwest Gem and Mineral Society, San Antonio chapter. She has been a wirework instructor at Originals Beads and Gems of San Antonio for three years.
