**Ross Miriello : Cannabis Botany and Marijuana Horticulture: Nutrient Solution Recipes** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cannabis Botany and Marijuana Horticulture: Nutrient Solution Recipes:

2 of 2 people found the following review helpful. Good book if you want lots of numbers without explanation.By KirkHuge amount of information in this publication. Unfortunately, it is totally impossible to understand. There are lots and lots of numbers and undefined terms. Gave it two stars because I can appreciate that the author was probably affected by the product he was writing about and it was very funny to see what some people can get away with selling

on . It looks like a great way to make money is to publish all of the phone numbers from a telephone book with no names and then give the book a sexy name.

Available NOW on Google Play! "Simply Growing the Right Way with Ease!" This Cannabis Botany and Marijuana Horticulture grow book and its many Nutrient Solutions Recipes (17) are for all types of Cannabis Strains and their specific time period in the flowering and fructification stages. From 8 to 16 weeks your Indica, Sativa, Afghan, Ruderalis and Hybrid Breeds, Seeds and Strains will conjointly work with an (A/B) liquid formula as a nutrient base and 3 powder nutrients to supplement specific key plant manipulation methods for each stage (or production sequence); Cloning, 4 Vegetation, 8 Vegetation, Darkness, Pre-flowering, Flowering Fructification, Flush Darkroom of the production schedule, with an average yield of over 1 Gram/Watt, and a medical marijuana quality that only a master grower achieves. And most importantly once your selected recipe is mastered you can tweak and perfect your dream nutrient solution recipe of your own.
