It has a good assortment of choices of patterns. The lovely designs are very reflective of designs I saw while in Ireland recently. I am only waiting for a short time to start because of the heat of summer but I have purchased my yarn for the first project.1 of 1 people found the following review helpful. Needs Errata includedBy C.DA book of patterns, I could have bought the one pattern I needed, but instead decided to buy the book. Was disappointed to see that the online pattern charts had been corrected for errors, but there was no errata included in the book purchase. Had to find out the hard way.

Go on a Celtic Journey with eight patterns that will make you feel in touch with the rolling green hills of the lush countryside. From cabled blankets and accessories to iconic sweaters you'll be wear proudly, this show stopping collection of rich textures, gorgeous colors, and traditional knits with a modern twist will prove challenging enough to take you on a true crafting adventure, over and over again.

Beautiful, unique designs. --
