Figurative ceramics is one of the most exciting and innovative areas of art today. Though ceramics has been unfashionable in the past, the last twenty-five years have seen a worldwide resurgence of interest in this art form among artists, galleries, and the public. In this book, Michael Flynn looks back at the last twenty-five years and selects over one hundred of the most important artists working with ceramic figures. He also includes ceramicists from earlier in the century whose work has had an influence on the subject. The work ranges from porcelain to raku and from the small to the monumental. Ceramic Figures is arranged alphabetically by last name, giving a thumbnail sketch of the artist and showing a variety of the artist's work. Major galleries and collections where the pieces appear are also

included. The result is a spectacular international survey of this most captivating of subjects.

About the Author Michael Flynn is a leading British ceramic artist. He exhibits frequently all over the world and has won many awards for his work.
