Excellent resource for someone interested in setting up a studio ...By joliefilleExcellent resource for someone interested in setting up a studio practice whether as a hobbyist or professional artist. Gives a lot of information on tools and equipment beyond just a couple "how-to" projects, although there are starter projects outlined. Also gives a brief introduction into useful techniques beyond standard ceramics including

metalwork, PMC and Egyptian Paste. Highly recommended. 1 of 1 people found the following review helpful. Five Stars
