Susan Penny, Martin Penny : Ceramic Painting Made Easy (Crafts Made Easy) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ceramic Painting Made Easy (Crafts Made Easy):

13 of 13 people found the following review helpful. Good for beginnersBy BethI am now a full-fledged ceramics nerd. Many ceramics shops have been springing up in my area and I am now a regular at one. There is nothing better than turning a blank piece of pottery into an originally painted gift or keepsake. This book shows easy-to-do designs and techniques. A must-have for any other ceramics maniacs out there.

This text presents a guide to painting ceramic surfaces. It shows how to decorate china at home, without the use of a kiln, using specialist paints commercially available. The finished product may be purely decorative, using cold-set ceramic paints, or durable with porcelain paint hardened in a domestic oven. Ten projects display the versatility of the

craft, and show readers how to paint on plates, mugs, a toast holder, egg cups, teapots, coasters and tiles. The projects also guide the reader through different effects such as sponging, dragging and finger-painting. The clear, step-by-step instructions are accompanied by photographs and illustrations, and practical applications include French-style tiles, Mediterranean bowls, a cruet set and notice boards.
