The book covers scholar's items from the Liao Dynasty to the Republic of China in the early 20th Century. This book is beautifully illustrated with excellent information regarding the objects presented as well as about the scholarly classes in China. Covers wrist wrists, seals, ink sticks/blocks, incense burners, table screens, brush pots, and much more. The items are accurately dated as well (many volumes show items with no dates, or just "Ming Dynasty" for example). Great buy for the serious Chinese porcelain collector at a bargain price.
