From Heinz Edgar Kiewe : Charted Peasant Designs from Saxon Transylvania (Dover Embroidery, Needlepoint) before purchasing it in order to gage whether or not it would be worth my time, and all praised Charted Peasant Designs from Saxon Transylvania (Dover Embroidery, Needlepoint):

0 of 0 people found the following review helpful. Excellent and fascinatingBy Maria A. KlingerExcellent and fascinating.If you are looking for an inspiration to decorate some kind of Church linen, this is for you. The first part explains the symbology of the motifs, in the second part, you find all the patterns.Obviously, the patterns can be used to decorate whatever you like.The booklet is a simple black and white print, but it is clear and that is all one needs.The

best compliments for this book came from my husband (the kind of guy who will use duct tape or staples to hem a torn jean), he said: somehow these patterns must be kind of an archetype, I don't understand them, but they move me and I like them. 5 of 5 people found the following review helpful. Great source of patterns
By SebLion Really like this chart book. There are a LOT of different patterns packed in here, many of which I really like. I knock off half a star, though, for how small the filled in squares are. It probably wouldn't be so bad if they had used x's instead of filling in to make counting stitches easier. That's my only complaint about it, though. Adding a picture of some of the patterns that are in here. Most patterns are band/border type, but that just makes designing your own band sampler much nicer. I plan on doing that myself, soon. =D

By Archie's Mom Excellent source of charted folk designs - knights, creatures, animals, geometrics, flowers, etc. Great for designing your own band samplers. Highly recommended.

The cross-stitch designs of the Transylvanian Saxon peasants are among the most fascinating embroideries in existence. This collection of 195 charted designs, originally collected prior to World War I by Emil Sigerus, is an invaluable source of unusual and interesting ideas of modern cross-stitchers and other craftspeople. These ornate, highly stylized designs cover a vast array of moods and historical epochs, from the medieval (mounted knights, falconers, winged horses, dragons, gryphons) to the strikingly modern (abstract designs, unusual geometric forms, florals) and range in complexity from simple patterns composed of a few lines to very intricate symmetrical designs. Portions of these designs are also a source of many repeat and border patterns and spot decorations. The designs are printed on a chart so that they can easily be used for needlepoint, Fair Isle knitting, rug-hooking, or any other form of counted-thread embroidery. And because the chart makes it easy to vary the size of each design, you can use the patterns to decorate anything from small pillows to bedspreads or wallhangings. Other craftspeople can transfer the patterns onto wood, metal, canvas, or mosaic to achieve stimulating and unusual effects.
